

Sreeja Pendyala

AI & Machine Learning Engineer | Software Developer

✉ sreejapendyala3@gmail.com ☎ +91 6302300641 📍 Kurnool, Andhra Pradesh 🔗 LinkedIn 🐙 GitHub

📄 Professional summary

Computer Science undergraduate specializing in AI, with knowledge of Python, Java, Machine Learning, APIs, databases, and cloud basics. Currently gaining practical experience through internships in AWS Cloud and Generative AI, including exposure to cloud services and AI tools. Looking for an opportunity to apply my skills and grow in a real-world environment

🎓 Education

2023 – 2027	B.Tech(Pursuing) Ashoka Women's Engineering College Computer Science Engineering and Artificial Intelligence Percentage:90.6
2021 – 2023	Intermediate (10+2) Narayana Junior College, Kurnool Board of Intermediate Education, Andhra Pradesh Percentage:97.3
2020 – 2021	Schooling St. Joseph's EM High School, Pattikonda Board: SSC Percentage: 94.5

🧠 Technical Skills

Programming Languages

Python, Java (Basics)

Libraries & Tools

NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Streamlit

Databases

SQL (Basics)

AI/ML

Artificial intelligence, Machine learning,NLP, prompt engineering,Data Analysis (Basics)

Core Computer Science

Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Cloud & Web technologies

AWS,Web services(Basics)

★ Personality Traits

Problem-solving & Analytical Thinking

Ability to analyze situations clearly, understand challenges, and find effective solutions.

Good Communication and Interpersonal Skills

Good communication and interpersonal skills with the ability to work well with others and share ideas clearly.

Teamwork & Collaboration

Effective teamwork and collaboration skills with the ability to work well with others to achieve common goals.

Time Management

Capable of prioritizing work and completing tasks on time.

📁 Projects

AI Digital Second Brain | Digital assistant Project 🔗

- Developed an AI personal assistant using Python and the Groq API for personalized conversations.
- Used chat memory and user profile details to provide better and more relevant responses.
- Added features like quizzes, number guessing games, and random facts in a simple command-line interface.
- Improved skills in Python, AI integration, prompt engineering, and conversational application development.

Misinformation Simulator | NLP-Text Analysis Project 🔗

- Developed a misinformation detection app using Python and Streamlit to identify spam, scam, fake, and misleading content.
- Used keywords, punctuation, uppercase words, links, and message length to analyze text patterns.
- Created charts using Plotly to display results clearly.
- Improved skills in text analysis, fake content detection, pattern recognition, and Python web application development.

 Internships

02/2026 – Present Hyderabad	AWS Cloud Intern Pursuit Future Technologies Gained hands-on exposure to core AWS services such as EC2, S3, and IAM. Learned the fundamentals of cloud computing, including deployment, storage, and access management. Explored how applications are hosted on the cloud and understood basic cloud architecture and security practices.
03/2026 – Present Tirupati	Python with Generative AI Think Champ PVT.LTD Worked with Generative AI concepts and tools, understanding how AI models generate text and responses. Explored prompt design, basic NLP concepts, and real-world AI applications such as chatbots. Gained practical exposure to building simple AI-based solutions.

 Certifications & Workshops

Programming in Java - NPTEL 2024  Learned core Java concepts including OOPS, control structures, and basic problem solving using Java.	LLM for Young Developers - Future skills,nasscom  Gained understanding of Generative AI, large language models, and their applications in building AI-based solutions.	AI Tools Workshop-be10x  Explored practical AI tools and learned how to use them for productivity, automation, and real-world applications.
